Apprentice projects
Mr. Willson

Project #1—Soda Tabs for Ronald McDonald House (Sept—April).
The student teams collect soda tabs to be donated to the Ronald McDonald House. At the end of each month the teams bring in their tabs. The tabs are weighed and the team with the greatest weight receives an award (food usually works best). At the end of the competition, the winning team will deliver the tabs to the Ronald McDonald House and be treated to lunch.

Project #2—Logo Design
A local youth sports team was selected. The teams designed a logo for the sports team. The logos were presented to the team and the team selected their favorite logo. The winning team received an award.

Project #3—Fairytale book
Each team selected a fairytale, rewrote it, bringing up to current times. The team wrote and illustrated a book. One team member from each group was selected to share their group's book with a 1st grade class. After each team shared their book, the class voted on their favorite story and the winning team was awarded a prize.

Project #4—District Cookbook
Recipes were solicited from all employees of the district. Each team was given the recipes and told to design a cookbook using the recipes. In addition, the team had to put together a sales pitch, as to why their book should be selected as the one to publish. The winning team will receive an award, and their cookbook may be published and sold as a district fundraiser.
